GNU GENERAL PUBLIC LICENSE
Version 3, 29 June 2007

Copyright (C) 2007 Free Software Foundation, Inc. <[http://
fsf.org/](http://fsf.org/)>

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The GNU General Public License is a free, copyleft license
for
software and other kinds of works.

The licenses for most software and other practical works are
designed
to take away your freedom to share and change the works. By
contrast,
the GNU General Public License is intended to guarantee your
freedom to
share and change all versions of a program--to make sure it
remains free
software for all its users. We, the Free Software Foundation,
use the
GNU General Public License for most of our software; it

applies also to
any other work released this way by its authors. You can
apply it to
your programs, too.

When we speak of free software, we are referring to freedom,
not
price. Our General Public Licenses are designed to make sure
that you
have the freedom to distribute copies of free software (and
charge for
them if you wish), that you receive source code or can get it
if you
want it, that you can change the software or use pieces of it
in new
free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from
denying you
these rights or asking you to surrender the rights.
Therefore, you have
certain responsibilities if you distribute copies of the
software, or if
you modify it: responsibilities to respect the freedom of
others.

For example, if you distribute copies of such a program,
whether
gratis or for a fee, you must pass on to the recipients the
same
freedoms that you received. You must make sure that they,
too, receive
or can get the source code. And you must show them these
terms so they
know their rights.

Developers that use the GNU GPL protect your rights with two
steps:
(1) assert copyright on the software, and (2) offer you this
License
giving you legal permission to copy, distribute and/or modify
it.

For the developers' and authors' protection, the GPL clearly
explains
that there is no warranty for this free software. For both
users' and
authors' sake, the GPL requires that modified versions be
marked as
changed, so that their problems will not be attributed

erroneously to
authors of previous versions.

Some devices are designed to deny users access to install or
run
modified versions of the software inside them, although the
manufacturer
can do so. This is fundamentally incompatible with the aim of
protecting users' freedom to change the software. The
systematic
pattern of such abuse occurs in the area of products for
individuals to
use, which is precisely where it is most unacceptable.
Therefore, we
have designed this version of the GPL to prohibit the practice
for those
products. If such problems arise substantially in other
domains, we
stand ready to extend this provision to those domains in
future versions
of the GPL, as needed to protect the freedom of users.

Finally, every program is threatened constantly by software
patents.
States should not allow patents to restrict development and
use of
software on general-purpose computers, but in those that do,
we wish to
avoid the special danger that patents applied to a free
program could
make it effectively proprietary. To prevent this, the GPL
assures that
patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution
and
modification follow.

TERMS AND CONDITIONS

0. Definitions.

"This License" refers to version 3 of the GNU General Public
License.

"Copyright" also means copyright-like laws that apply to
other kinds of
works, such as semiconductor masks.

"The Program" refers to any copyrightable work licensed

under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations.

To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.

A "covered work" means either the unmodified Program or a work based on the Program.

To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

1. Source Code.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A

"Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but

which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which

you do
not control copyright. Those thus making or running the
covered works
for you must do so exclusively on your behalf, under your
direction
and control, on terms that prohibit them from making any
copies of
your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely
under
the conditions stated below. Sublicensing is not allowed;
section 10
makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective
technological
measure under any applicable law fulfilling obligations under
article
11 of the WIPO copyright treaty adopted on 20 December 1996,
or
similar laws prohibiting or restricting circumvention of such
measures.

When you convey a covered work, you waive any legal power to
forbid
circumvention of technological measures to the extent such
circumvention
is effected by exercising rights under this License with
respect to
the covered work, and you disclaim any intention to limit
operation or
modification of the work as a means of enforcing, against the
work's
users, your or third parties' legal rights to forbid
circumvention of
technological measures.

4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code
as you
receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright
notice;
keep intact all notices stating that this License and any
non-permissive terms added in accord with section 7 apply to

the code;
keep intact all notices of the absence of any warranty; and
give all
recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you
convey,
and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the
modifications to
produce it from the Program, in the form of source code under
the
terms of section 4, provided that you also meet all of these
conditions:

a) The work must carry prominent notices stating that you
modified
it, and giving a relevant date.

b) The work must carry prominent notices stating that it
is
released under this License and any conditions added under
section

7. This requirement modifies the requirement in section 4
to
"keep intact all notices".

c) You must license the entire work, as a whole, under
this

License to anyone who comes into possession of a copy.
This

License will therefore apply, along with any applicable
section 7

additional terms, to the whole of the work, and all its
parts,

regardless of how they are packaged. This License gives
no

permission to license the work in any other way, but it
does not

invalidate such permission if you have separately received
it.

d) If the work has interactive user interfaces, each must
display

Appropriate Legal Notices; however, if the Program has
interactive

interfaces that do not display Appropriate Legal Notices,

your

work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.

b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable

physical

medium customarily used for software interchange, for a price no

more than your reasonable cost of physically performing this

conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

c) Convey individual copies of the object code with a copy of the

written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and

only if you received the object code with such an offer, in accord with subsection 6b.

d) Convey the object code by offering access from a designated

place (gratis or for a charge), and offer equivalent access to the

Corresponding Source in the same way through the same place at no

further charge. You need not require recipients to copy the

Corresponding Source along with the object code. If the place to

copy the object code is a network server, the Corresponding Source

may be on a different server (operated by you or a third party)

that supports equivalent copying facilities, provided you maintain

clear directions next to the object code saying where to find the

Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is

available for as long as needed to satisfy these requirements.

e) Convey the object code using peer-to-peer transmission, provided

you inform other peers where the object code and Corresponding

Source of the work are being offered to the general public at no

charge under subsection 6d.

A separable portion of the object code, whose source code is

excluded

from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

"Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is

characterized), the
Corresponding Source conveyed under this section must be
accompanied
by the Installation Information. But this requirement does
not apply
if neither you nor any third party retains the ability to
install
modified object code on the User Product (for example, the
work has
been installed in ROM).

The requirement to provide Installation Information does not
include a
requirement to continue to provide support service, warranty,
or updates
for a work that has been modified or installed by the
recipient, or for
the User Product in which it has been modified or installed.
Access to a
network may be denied when the modification itself materially
and
adversely affects the operation of the network or violates the
rules and
protocols for communication across the network.

Corresponding Source conveyed, and Installation Information
provided,
in accord with this section must be in a format that is
publicly
documented (and with an implementation available to the public
in
source code form), and must require no special password or key
for
unpacking, reading or copying.

7. Additional Terms.

"Additional permissions" are terms that supplement the terms
of this
License by making exceptions from one or more of its
conditions.
Additional permissions that are applicable to the entire
Program shall
be treated as though they were included in this License, to
the extent
that they are valid under applicable law. If additional
permissions
apply only to part of the Program, that part may be used
separately
under those permissions, but the entire Program remains

governed by
this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

- a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or

- b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or

- c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or

- d) Limiting the use for publicity purposes of names of licensors or authors of the material; or

- e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or

- f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified

versions of

it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered "further restrictions" within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your

license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

11. Patents.

A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version".

A contributor's "essential patent claims" are all patent

claims
owned or controlled by the contributor, whether already
acquired or
hereafter acquired, that would be infringed by some manner,
permitted
by this License, of making, using, or selling its contributor
version,
but do not include claims that would be infringed only as a
consequence of further modification of the contributor
version. For
purposes of this definition, "control" includes the right to
grant
patent sublicenses in a manner consistent with the
requirements of
this License.

Each contributor grants you a non-exclusive, worldwide,
royalty-free
patent license under the contributor's essential patent
claims, to
make, use, sell, offer for sale, import and otherwise run,
modify and
propagate the contents of its contributor version.

In the following three paragraphs, a "patent license" is any
express
agreement or commitment, however denominated, not to enforce a
patent
(such as an express permission to practice a patent or
covenant not to
sue for patent infringement). To "grant" such a patent
license to a
party means to make such an agreement or commitment not to
enforce a
patent against the party.

If you convey a covered work, knowingly relying on a patent
license,
and the Corresponding Source of the work is not available for
anyone
to copy, free of charge and under the terms of this License,
through a
publicly available network server or other readily accessible
means,
then you must either (1) cause the Corresponding Source to be
so
available, or (2) arrange to deprive yourself of the benefit
of the
patent license for this particular work, or (3) arrange, in a
manner

consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that

arrangement,
or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting
any implied license or other defenses to infringement that may
otherwise be available to you under applicable patent law.

12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order,
agreement or
otherwise) that contradict the conditions of this License,
they do not
excuse you from the conditions of this License. If you cannot
convey a
covered work so as to satisfy simultaneously your obligations
under this
License and any other pertinent obligations, then as a
consequence you may
not convey it at all. For example, if you agree to terms that
obligate you
to collect a royalty for further conveying from those to whom
you convey
the Program, the only way you could satisfy both those terms
and this
License would be to refrain entirely from conveying the
Program.

13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you
have
permission to link or combine any covered work with a work
licensed
under version 3 of the GNU Affero General Public License into
a single
combined work, and to convey the resulting work. The terms of
this
License will continue to apply to the part which is the
covered work,
but the special requirements of the GNU Affero General Public
License,
section 13, concerning interaction through a network will
apply to the
combination as such.

14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new

versions of
the GNU General Public License from time to time. Such new
versions will
be similar in spirit to the present version, but may differ in
detail to
address new problems or concerns.

Each version is given a distinguishing version number. If
the
Program specifies that a certain numbered version of the GNU
General
Public License "or any later version" applies to it, you have
the
option of following the terms and conditions either of that
numbered
version or of any later version published by the Free Software
Foundation. If the Program does not specify a version number
of the
GNU General Public License, you may choose any version ever
published
by the Free Software Foundation.

If the Program specifies that a proxy can decide which
future
versions of the GNU General Public License can be used, that
proxy's
public statement of acceptance of a version permanently
authorizes you
to choose that version for the Program.

Later license versions may give you additional or different
permissions. However, no additional obligations are imposed
on any
author or copyright holder as a result of your choosing to
follow a
later version.

15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT
PERMITTED BY
APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE
COPYRIGHT
HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS"
WITHOUT WARRANTY
OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT
LIMITED TO,
THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A
PARTICULAR
PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF

THE PROGRAM
IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME
THE COST OF
ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO
IN WRITING
WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES
AND/OR CONVEYS
THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY
GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING
OUT OF THE
USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED
TO LOSS OF
DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY
YOU OR THIRD
PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER
PROGRAMS),
EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
POSSIBILITY OF
SUCH DAMAGES.

17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability
provided
above cannot be given local legal effect according to their
terms,
reviewing courts shall apply local law that most closely
approximates
an absolute waiver of all civil liability in connection with
the
Program, unless a warranty or assumption of liability
accompanies a
copy of the Program in return for a fee.

END OF TERMS AND CONDITIONS
